Tools: Nmap, Metasploit, Hashcat, SQL Server Management Studio
Scripting: PowerShell, Python, SQL, Java, C/C++

WORK EXPERIENCE

Farrell Fritz, P.C. — Uniondale, NY   Jul 2023 – Present

- *Cybersecurity & Systems Administrator (Aug 2025 – Present)*
  - Remediated high-severity vulnerabilities (CVSS $\geq$ 7.0) across servers and endpoints.
  - Hardened security posture by correcting account permissions and tightening access controls.
  - Administered AD/GPO; built Windows Server VMs and migrated legacy applications.
  - Expanded MFA coverage across critical systems.
  - Detected and investigated threats using SentinelOne EDR monitoring and analysis.
  - Automated patching, logging, and configurations with PowerShell and Python.

- *Cybersecurity Intern (May 2025 – Aug 2025)*
  - Performed incident response and supported forensic analysis of compromised endpoints.
  - Applied prioritized Nessus remediations during maintenance windows.
  - Investigated anomalies in TrueDigital Stellar dashboard and coordinated with system owners.

- *Help Desk & Systems Administration Intern (Jul 2023 – Jan 2025)*
  - Provisioned AD accounts, imaged and deployed endpoints, and supported 175+ users (M365, Teams, VPN, print).
  - Restored documents in iManage using SQL Server Management Studio; managed print servers/queues.
  - Built PowerShell utilities to accelerate ticket resolution and automate checks.
  - **Project:** Migrated Servers Alive to Windows Server with near-zero downtime.

Andrew Stergiopoulos Ice Rink — Great Neck, NY   Sep 2021 – May 2022

Hockey Coach

- Coached teamwork and skills; supported practice drills and game preparation.
